Student Information:

Student Name: _____

School Issued Student ID: N/A

Program Name: HVAC Technician with Externship C.14.114

Program Type: Certificate

Program Duration: 6 Months

Scheduled Start Date: _____

Estimated Completion Date: _____

Course Delivery Format Online

Program Overview:

This program focuses on broad, transferable skills, including an understanding of the heating, air-conditioning, refrigeration and ventilation industry, and demonstrates elements of the industry such as planning, management, finance, technical and production skills, the underlying principles of technology, and health, safety, and environmental issues. The purpose of this program is to prepare students to perform entry-level HVAC maintenance and repair tasks in residential and commercial environments. The increasing development of heating, ventilation, and air-conditioning (HVAC) systems technology creates a number of employment opportunities in this long-standing trade poised for even more growth in the coming years. An HVAC technician installs, maintains, and repairs heating, air conditioning, and refrigeration systems. Professionals who work in this occupation might specialize in installation, or in maintenance and repair.

Certification/Licensure Eligibility upon Program Completion:

Students should have or be pursuing a high school diploma or GED.

-In addition to facilitating entry-level HVAC positions, students will be prepared and qualified to sit for the United States Environmental Protection Agency (EPA) 608 Core and 608 Small Appliances (Type I) Certifications

-Students are eligible for an optional externship with a local employer after successful course completion

Tuition Cost:

\$3,999
