Student Information:

Student Name:	_____
School Issued Student ID:	N/A
Program Name:	Amazon Web Services Certified Solutions Architect Certificate Program with Externship C.14.91
Program Type:	Certificate
Program Duration:	6 Months
Scheduled Start Date:	_____
Estimated Completion Date:	_____
Course Delivery Format	Online

Program Overview:

This comprehensive program starts with foundational instruction on Amazon Web Services with coverage on cloud computing and available AWS services, as well as a guided hands-on look at using services such as EC2 (Elastic Compute Cloud), S3 (Simple Storage Service), and more. The Amazon Web Services (AWS) course is designed to provide a solid foundational understanding of the Amazon Web Services (AWS) infrastructure-as-a-service products. The course covers concepts necessary to understand cloud computing platforms, working with virtual machines, storage in the cloud, security, high availability, and more.

Throughout this program, we will cover all the key areas addressed in the exam and review a number of use cases designed to help you ingrain the principles and practices on which this certification is based so that you have an intellectual framework with which to formulate the correct answers. We will use a combination of demonstrations, architectural diagram walkthroughs, and case studies to help you understand the tools available to you for passing the exam. Throughout this course you will gain a deeper understanding of AWS architecture following the five pillars of the Well-architected framework. Demonstrations of Amazon Web Services and third-party cloud solutions are included to provide a clear guide to understanding the services offered by Amazon Web Services and the needs those services meet.

Certification/Licensure Eligibility upon Program Completion:

Students should have or be pursuing a high school diploma or GED.

-Students who complete this program will be eligible to sit for the **Amazon Web Services Solutions Architect Exam**

Tuition Cost:

\$3,999
