Student Information:

Student Name:	
School Issued Student ID:	N/A
Program Name:	CompTIA Linux+ with Command Line Certificate Program with Externship C.14.117
Program Type:	Certificate
Program Duration:	6 Months
Scheduled Start Date:	
Estimated Completion Date:	
Course Delivery Format	Online

Program Overview:

This program introduces students to the competencies required of an early career IT professional supporting Linux systems. The content provides thorough coverage of command-line skills that work on multiple distributions and prepares anyone who wants to acquire in-depth knowledge of common Linux tasks. In addition to topics traditionally associated with systems administration tasks, such as configuring, managing, operating and troubleshooting in a Linux environment, this program also focuses on security, kernel modules, storage and virtualization, enterprise-level device management, DevOps basics, through Git and automation. The program further walks through networking and firewalls, especially involving security issues, server-side and command line, troubleshooting and SELinux with a focus on implementation.

The CompTIA Linux+/LPIC-1 program covers all objectives on the CompTIA Linux+ and Linux Professional Institute LPIC-1 exams. The CompTIA Linux+/LPIC-1 course offers everything needed to study for and pass the exams. Learners have the opportunity to explore every topic included in the exam objectives. This course also serves as an introduction for people interested in learning basic Linux administration skills. The content provides thorough coverage of command-line skills that work on multiple distributions and prepares anyone who wants to acquire in-depth knowledge of common Linux tasks.

Certification/Licensure Eligibility upon Program Completion:

- Students should have or be pursuing a high school diploma or GED.
