Student Information:

Student Name:	_____
School Issued Student ID:	N/A
Program Name:	LEAN Enterprise Certificate Program with Externship C.14.119
Program Type:	Certificate
Program Duration:	6 Months
Scheduled Start Date:	_____
Estimated Completion Date:	_____
Course Delivery Format	Online

Program Overview:

A "Lean Enterprise" can be defined as one that "performs without waste." Despite constant efforts to the contrary, many organizations waste anywhere from 70-90% of available resources and staff through improper management or ineffective use of materials, time, information, equipment and inventory. The Lean Bronze Certification will help participants to overcome these difficulties by applying Lean Enterprise principles and practices throughout their own organization. Projects offered throughout the course will offer participants in-depth experience implementing all the necessary steps to achieve successful results across multiple functions and operations in any organization.

Applying these principles to their own work, the Lean Bronze Certification program offers participants the chance to see how the benefits of these techniques would improve their own company or organization. Through successful completion of these projects, participants will learn how implementing Lean Techniques can result in dramatic improvements in cash flow, customer loyalty, market share, safety and morale as well as overall cycle-time and productivity. Lean Enterprise concepts focus on removing waste and increasing speed in order to affect the bottom line. To achieve these goals, participants will learn how to remove non-value added process steps, fix the connections between steps and really put the focus back on the customer.

Certification/Licensure Eligibility upon Program Completion:

- Students should have or be pursuing a high school diploma or GED.
- Students who complete this program can sit for the following exams:
 - American Society for Quality (ASQ) Lean Bronze Certification

Tuition Cost:

\$3,999
